

R E F E R E N C E S

Lisa has been caring for our children for the past 5 months. She has an excellent program that allows for both structured activities and plenty of free play. She maintains a clean home and provides excellent nutritious meals. Most importantly, the kids really like going to Lisa's. She provides an environment that encourages sharing and learning. We know that while we are at work we can rest assured that our kids are in good hands. I have no doubt that when our next little one comes along they will love it there too!

Hi, My name is Amber and my daughter Kebraea has been attending daycare at Lisa's for the past few months. Kebraea really enjoys her time there and has adapted very quickly. I feel safe and confident with my daughter in her care. During her time at Lisa's she has started speaking more, has daily outside time, enjoys musical activities, and all the positive interaction that she has with the other children. I highly recommend Lisa as a daycare provider because I believe she takes care of the children as if they were her own. I have had a hard time finding a daycare provider that truly enjoys her job until I met Lisa. She does a wonderful job! If you have any specific questions you may call me at 612-227-3426.

My son has been in Lisa's care since August of 2007. I had switched daycares at that time due to a need for a more structured environment. I was looking for a daycare that was going to offer me dependable care, a structured learning environment while at the same time allowing free time for imaginative play, a nutritious food program, and a loving and nurturing provider. I have found all of that with Lisa & her program. I couldn't ask for more with what we have found. My son has flourished in her care. He really enjoys learning in the preschool program, dancing in dance class, and playing with all of his new friends among many other activities. The communication with Lisa has been great - I never have to worry about my son during the day & through the daily emails I know what he is doing, what he is eating, etc. I highly recommend Lisa to anyone looking for a daycare.

2/19/08:

For anyone considering Lisa Annoni as their Daycare provider, have no doubts, she is of *the best* out there. My three daughters started with Lisa at ages 4, 2 & 2, have learned so much and absolutely love being there. They are so proud to tell me what they've learned for the day or to show me their pictures and projects. As a parent, I'm grateful for all of the fun activities she involves them with. Even more, Lisa's way of communicating with me keeps me at ease because she's so positive, yet professional and really cares. Moving back here, I don't know how we would have adjusted to daycare and work, without Lisa being a big part of giving our family the confidence we needed. To anyone, you can really feel confident in, and count on Cradles2Crayons as a superior daycare. I attest to it. -
